

Polling information Request

Ask Police to provide as much of the following information related to (all) complainant(s), (all) defendant(s) and any associated party(s).

- Record of polling activities related to voice, text, data, location update, attach & detach, and cell reselection (record of these activities on all technologies used by the phone)
- Time and duration of the polling activity
- Cell IDs of all cell sites that served the polling activity
- Coordinates, azimuth, technology and frequency of all the cell IDs
- Timing advance or propagation delay associated with the polling activity.
- Amount of data per data session

Ask Police to request the mobile operator to provide answers to the following questions

1. Timing accuracy of the data sessions. If the timing is not accurate, what is the typical range of error.
2. Availability of second cell site that served the polling activity
3. Explanation of how the data sessions are recorded.
 - a. How is the time stamp on the of the data session is calculated.
 - b. If duration of a data session is recorded how is the duration calculated.
